Are you in Compliance with NC Law? Connecting to NC's Health Information Exchange, NC HealthConnex

MONDAY, JUNE 3, 2019

One of the goals of a transformed health care system is for near real-time clinical and demographic data to be made available to all health care providers involved in a patient's care so that they can securely share health information concerning that patient with each other.

North Carolina's state-designated health information exchange, NC HealthConnex, was created in 2015 by the North Carolina General Assembly to help bridge the gap between disparate systems and health care networks to support whole patient care.
